

AI-Powered Records Management Automation

Eliminate Manual Work

Unlock Business Insights

Ensure Compliance

The dashboard interface for Recordkeeper AI features a top navigation bar with a search icon, a notification bell, and a user profile for Sean. A central search bar contains the query "I need Tax filing records for 2022 of my company" with a "Submit to RecordsKeeper AI" button. The main content area is divided into several sections: "Data Activity" showing a bar chart of file activity for 2023; "Files Usage" listing categories like Documents (37%), Images (3%), Videos (20%), Audios (20%), Compressed (20%), and Others (20%); and a storage status section showing 3.2GB/5GB available storage with a 70% usage indicator and an "Upgrade Now" button. Below these are sections for "Recently Visited Files" and "Most Visited Folders", each with a "View All" link.

Lost to manual searches

Introducing

recordskeeper.aiTM

The Future of Intelligent Record Management

AI-Powered Automation

Eliminates manual filing, categorization, & retrieval

Secure Data Rooms

Ensure the sharing of the records with control

Blockchain-Backed Security

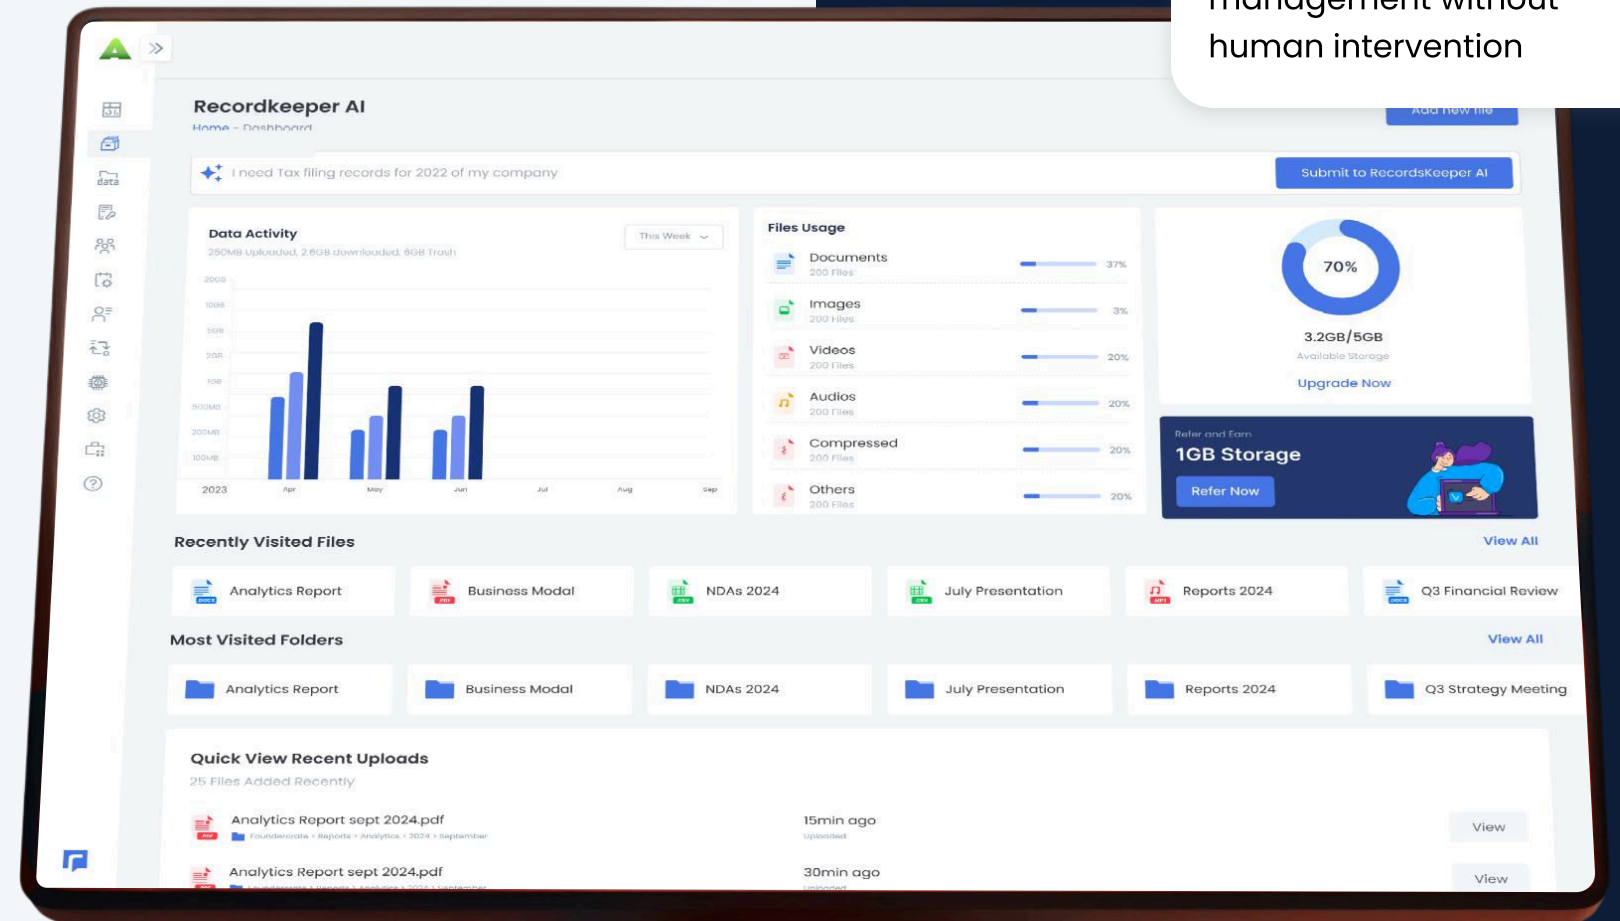

Ensures tamper-proof records and compliance.

Smart search & intelligent workflows

Transform records into actionable insights.

AI-driven platform that uses **AI and Blockchain** to automate record management without human intervention

Key Features That Make Life Easier

Smart Document Upload

- Drag & drop or forward from anywhere
- Email, WhatsApp & API integration
- AI-powered auto-categorization, drop & forget
- Instant document accessibility via Mobile App

Intelligent Search

- Chat-based queries "Find all invoices from Q1 2023" or "Show contracts expiring next month"
- Natural Language Processing (NLP)
- Instant, precise results with ChatGPT like App

Automated Compliance

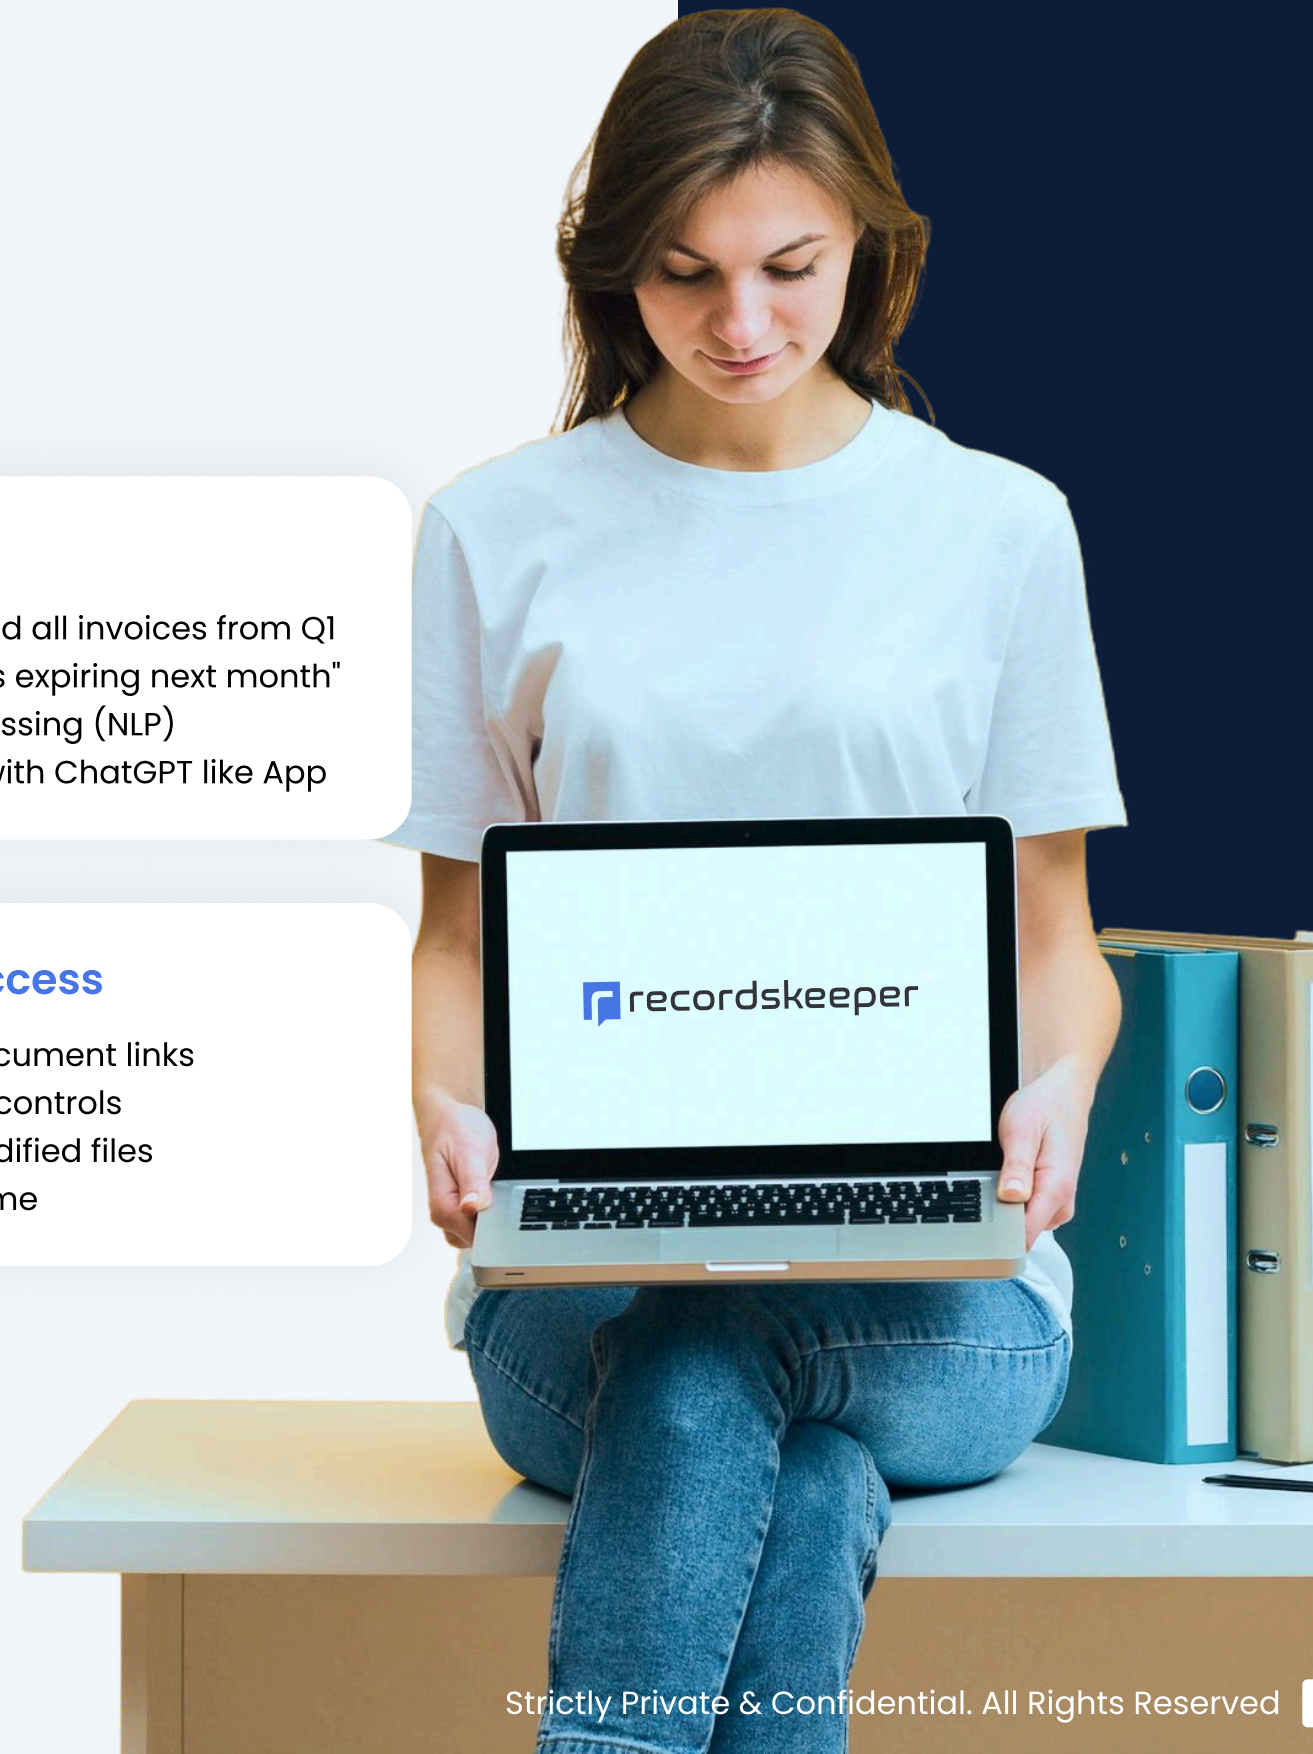

- Real-time monitoring of regulatory adherence
- Automated compliance alerts
- Policy enforcement & built-in audit readiness
- Tamper-proof blockchain records

Secure Sharing & Access

- One-click encrypted document links
- Time-restricted access controls
- Track who viewed & modified files
- Revoke access in real time

Eliminate inefficiencies, compliance risks & data breaches.

Without RecordsKeeper.AI

- ↳ Hours spent filing documents
- ↳ Complex folder structures
- ↳ Lost files and version conflicts
- ↳ Compliance risks & fines
- ↳ Human errors & misfiling
- ↳ Limited document access
- ↳ No business insights

With

- ↳ Instant AI-powered categorization
- ↳ Smart, auto-organized system
- ↳ Never lose a document
- ↳ Automated compliance & real-time alerts
- ↳ Error-free AI-powered processing
- ↳ Anytime, anywhere secure access
- ↳ AI-driven analytics & intelligence

Effortless compliance, productivity, and security—RecordsKeeper.AI transforms record management

Advanced Product Modules: A Deep Dive

AI-Powered Record Management

Smart categorization, pattern recognition, and context-aware handling enhance efficiency.

Cap Table & Shareholder Management

Equity structure tracking, transaction documentation, & ownership history ensure accuracy.

Secure Data Rooms

Granular access control, activity monitoring, and time-limited access ensure security.

Blockchain Security & Compliance

Immutable audit trails, tamper-proof data, and real-time compliance ensure security.

Digital Signing & Workflow Automation

Integrated e-signatures, multi-party approvals, and bulk signing streamline workflows.

Smart Document Search & Retrieval

AI-driven search, quick access filters, and chat-based retrieval enhance efficiency.

Business Intelligence & Analytics

Custom dashboards, predictive analysis, and automated reports streamline decision-making and compliance.

Board & Compliance Meeting Management

Automated scheduling, decision tracking RecordsKeeper.AI enhances compliance, storage.

Enterprise-Grade Security & Compliance You Can Trust

RecordsKeeper.AI ensures the highest level of security, privacy, and compliance, making it the trusted choice for Enterprises & SMBs.

Our Compliance Certifications

SOC 2

Secure & reliable data management for enterprises

ISO 27001

Industry-leading information security management

HIPAA

Fully compliant for handling sensitive healthcare records

GDPR

Ensuring complete data privacy & regulatory compliance

Why It Matters for You

Protect sensitive business & customer data with best-in-class security.

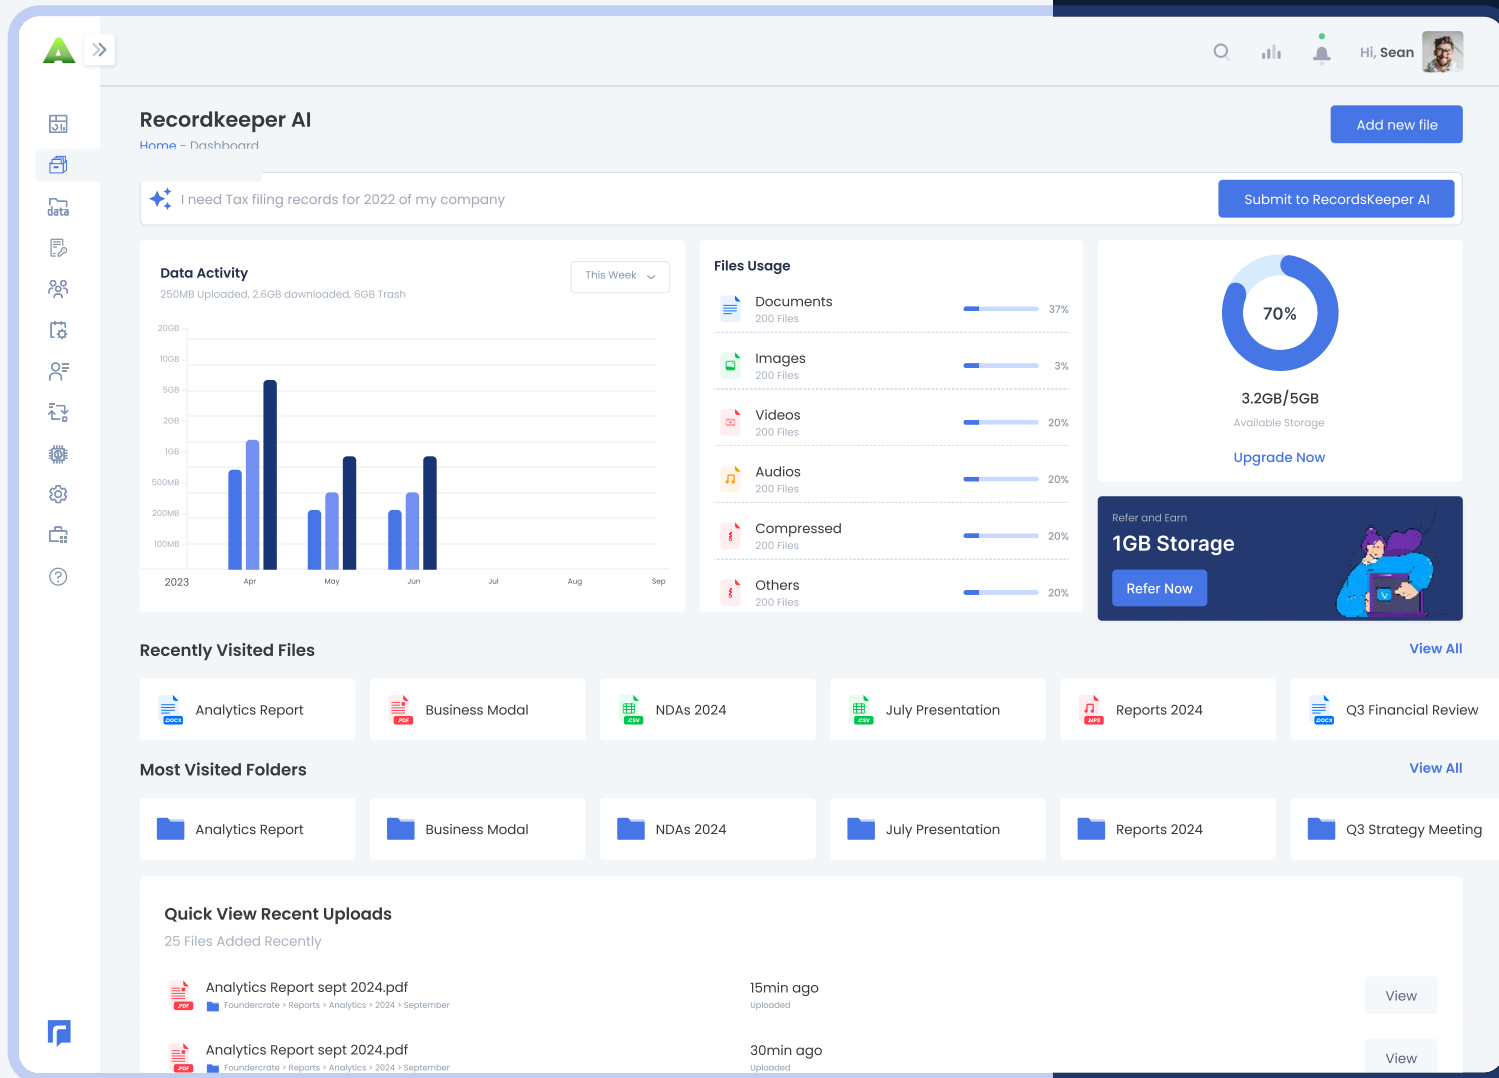

**Your Records. Fully Secure.
Always Compliant**

How It Works

Upload your files, let AI handle organization and tagging, and enjoy secure, tamper-proof records with instant retrieval and seamless collaboration.

Start in 3 Simple Steps

01 Connect Storage

Effortlessly integrate your storage like Google Drive, Dropbox, or AWS. No complicated setup —just link and sync.

01

02

Let AI do it's Magic

Sit back as our AI-powered engine organizes, categorizes, and secures your records in seconds. No manual effort needed!

03

Enjoy Record Keeping

Access tamper-proof, searchable records anytime. Collaborate seamlessly and stay compliant with minimal effort.

Core Team

Toshendra Sharma

Founder & CEO

Post-graduate from IIT Bombay in Computer Science. A known face in the industry with a previous bootstrapped & funded startups in the blockchain, education & AI space. An entrepreneur for the last 15 years. Forbes Asia 30 Under 30.

Rohendra Singh

Co-Founder & CTO

Programmer, Architect, DevOps Expert with 15 years of experience in developing software products. Has developed more than 7 feature-rich secure SaaS applications around Blockchain & Education.

Kanishka Sharma

Operation Head

A results-driven Operations Head with expertise in customer success, client experience optimization, and retention strategies. Skilled in problem-solving, communication, and relationship-building to drive business growth and customer satisfaction.
